📁 PROJECTS

Login & Signup Page 🔗

- Developed a user login interface with form validation and responsive design using **HTML, CSS, and JavaScript**, focusing on basic authentication flow and UI usability.

Weather Website 🔗

- Built a weather application that fetches real-time weather data using a public API and displays current conditions based on user location or search input using **JavaScript**.

Personal Portfolio Website

- Designed and developed a responsive personal portfolio using **React.js** and **Tailwind CSS** to showcase projects, skills, and contact information with a clean and modern user interface.

CERTIFICATES

Certificate of Recognition – TENSORA 2K25 (National Level Hackathon)

- Participated in a National Level Hackathon and developed **Nourish AI**, a healthcare-focused nutrition assistant with personalized meal suggestions and BMI-based diet recommendations using the **MERN stack**.

Certificate of Participation – Build for Botanicals Website Design Challenge

- Participated in the Build for Botanicals – Website Design Challenge via Unstop, gaining hands-on experience in realworld web design, time management, and teamwork under deadlines.
